RASCH TEXTIL

Textile treasures replete with style and elegance

The harmonic ambience of a room is mostly created by its walls and their decoration– to cover them with precious materials and textures is sensual and beautiful. Patterned wallcoverings adorn them and are enticing to the eye, structures create an inviting tactility – Aureus wallcoverings lend a personal touch to any décor.

Merging contrasting styles to achieve a new harmonic entity was the basic idea to create the Aureus collection – a textile treasure trove is the result.

Aureus provides eclectic wall spaces for rooms with intriguing design statements:

Pure linen – a precious renewable resource - merges with a shimmering metallic emboss to create an opulent patinated ornament design.

Velvety soft chenille is partnered with crystalline glass for a broad stripe – an impressive duet of handcrafted allure and industrial refinement.

The music of colour alters in subtle sound nuances providing the Aureus wallcovering with mysterious layers of dimension. An elaborate three-dimensional design is enhanced by iridescent inks, yet remains tranquil in its overall look

Plains with a subtle mother-of-pearl sheen, delicately metallised grass fibres and semi-plains allow for an understated luxurious style statement and are timeless in their sophisticated beauty because “Fashion fades but style remains” (Coco Chanel).

The Aureus colour scheme encompasses gold, silver, deep red, soft natural tones, stone variations, aqua hues as well as classic green/blue combinations.
