### MILANO PRODUCT INFORMATION:

**Type:** Corrected Grain  
**Source:** Italy  
**Average Hide Size:** 4.8m<sup>2</sup>  
**Thickness:** 1.0 - 1.1mm

MILANO is a premium corrected grain leather which has been very lightly buffed and embossed with a fine print. MILANO displays a subtle two-tone effect, highlighting the depth and complexity of each colour. The finished product also exhibits an understated lustre, adding further warmth to the leather.

Bring extremely tolerant to soiling and spillage, MILANO is perfectly suited to any residential or commercial application.

All colours are in stock in our Australian warehouse and available for immediate off-the-shelf delivery.

Custom colours are available on request.

### COMPANY ENVIRONMENTAL NOTES:

MILANO is produced by one of the world's leading tanners, the Rino Mastrotto Group – an ISO 14001 Certified company. This ISO Standard recognises organisations that are committed to environmental management and operate in an environmentally sustainable manner.

The tannery also carries the ISO 9001 Quality Certification. Their assurance of environmental responsibility extends to a full annual Environmental Impact Audit which accompanies their annual financial statements. This unique practice set the global benchmark for transparency in the tanning industry. The Rino Mastrotto Group utilises some of the most advanced waste management techniques in the industry, with all tannery wastage (liquid, gas and solid) treated to European Standards on-site and again at a shared off-site facility.

MILANO is produced using only water-based dyes.

Detailed product and tannery environmental notes are available on request.
