## PISA PRODUCT SPECIFICATIONS

Test	Normative	Unit	Value
THICKNESS	ISO2589	mm	0.9/1.1mm
TEAR STRENGTH	ISO3377-2	N/mm	40N min
ADHESION	ISO 11644	N/cm	3.5 N/cm min
COLOUR FASTNESS - ARTIFICIAL LIGHT	ISO 105-B02	72 hr	5 min (Blue Scale)
FLEX RESISTANCE	ISO 5402	20000 cycles	No Cracks
COLOUR FASTNESS TO RUBBING	ISO 11640	500 cycles dry	5/5 min (Grey Scale)
		50 cycles wet	5/5 min (Grey Scale)
COLOUR FASTNESS TO WATER	ISO 105-E01		5 min (Grey Scale)
COLOUR FASTNESS TO WATER SPOTTING	ISO 105-E07		5 min (Grey Scale)

### PISA PRODUCT INFORMATION:

**Type:** Corrected Grain  
**Source:** Italy  
**Average Hide Size:** 4.8m<sup>2</sup>  
**Thickness:** 0.9 - 1.1mm

PISA is produced by very lightly buffing or 'correcting' the top layer of the leather before embossing a grain print onto the finished product. The pigmentation and embossing are very light, allowing the product to retain its breathability and supple handle.

Extremely tolerant to soiling and spillage, PISA offers an affordable option for comfortable, quality furniture in any commercial or residential application.

All colours are in stock in our Australian warehouse and available for immediate off-the-shelf delivery.

Custom colours are available on request.

### COMPANY ENVIRONMENTAL NOTES:

PISA is produced by an ISO 14001 certified company. This ISO Standard recognises organisations that are committed to environmental management and operate in an environmentally sustainable manner.

The tannery also carries the ISO 9001 Quality Certification, which recognises its quality and management systems. Their commitment to environmentally responsible production has led to partnership programs with many of Europe's leading green companies in the fields of automotive, aircraft, marine, garment, footwear and upholstery leather production.

PISA is produced using only water-based dyes.

The tannery utilises some of the most advanced waste management techniques in the industry, with all tannery wastage (liquid, gas and solid) treated to European Standards on-site and again at a shared off-site facility.

Detailed product and tannery environmental notes are available on request.
