		250 cycles wet	4 min (Grey Scale)
COLOUR FASTNESS TO WATER	ISO 105-E01		5 min (Grey Scale)
COLOUR FASTNESS TO WATER SPOTTING	ISO 105-E07		4/5 min (Grey Scale)

### SENSO PRODUCT INFORMATION:

**Type:** Pigmented  
**Source:** Italy  
**Average Hide Size:** 5.0m<sup>2</sup>  
**Thickness:** 1.2 - 1.3mm

SENSO is a heavyweight leather that is produced on premium bull hides by one of Italy's finest and most respected tanneries.

As the name implies, SENSO is all about the senses. The visual impact of the pronounced grain, the depth and strength of each colour and the beautifully soft handle combine to create a truly sensory experience.

SENSO is extremely tolerant to soiling and spillage and has outstanding technical qualities, making it the perfect choice for any residential or commercial application.

The entire spectrum of stunning SENSO colours is in stock in our Australian warehouse and available for immediate off-the-shelf delivery.

Custom colours are available on request.

### COMPANY ENVIRONMENTAL NOTES:

SENSO is produced by one of the world's leading tanners, the Rino Mastrotto Group – an ISO 14001 Certified company. This ISO Standard recognises organisations that are committed to environmental management and operate in an environmentally sustainable manner.

The tannery also carries the ISO 9001 Quality Certification. Their assurance of environmental responsibility extends to a full annual Environmental Impact Audit which accompanies their annual financial statements. This unique practice sets the global benchmark for transparency in the tanning industry. The Rino Mastrotto Group utilises some of the most advanced waste management techniques in the industry, with all tannery wastage (liquid, gas and solid) treated to European Standards on-site and again at a shared off-site facility.

SENSO is produced using only water-based dyes.

Detailed product and tannery environmental notes are available on request.
